WE CARE about Quality!!!

We do this by WORKING TOGETHER to help each other to be:

Creative!

Accountable!

Responsible!

Engaged!

- Creative:** We are a community of Shipbuilders who are always looking to improve our processes by asking “Why” and using Plan/Do/Check/Act to find ways to error-proof our work.
- Accountable:** We protect the House by each person having ownership with accountability to be better every day. We look for solutions, not excuses.
- Responsible:** We embrace a servant-leadership culture to continuously develop people. We do what is right every time.
- Engaged:** We have a "Go and See" approach: we are committed to complying with requirements and to continually improve the effectiveness of the Quality Management System.
